General

In order to reduce the work involved to a minimum and avoid duplication of effort, if the data covered by the questionnaire can be obtained from the Washington real estate records of any department or establishment, (either already completed or at present being compiled), it is requested that there be noted in the questionnaire, in the space reserved for the response, a description of the data available, and its distinguishing file numbers, etc., its office location in Washington, and the name, address and phone number of the officer or employe in whose custody it is, so that expeditious arrangements can be made by correspondence or by telephone to make these data available to the Federal Real Estate Board in a manner most convenient to all concerned; also, in case any of these real estate data are obtainable from any printed or mimeographed document, it is similarly requested that the title or other reference necessary to identify the document, be noted in the proper place in the questionnaire and if available, a copy of all such documents be forwarded to the Federal Real Estate Board.

Information as to all changes of any character whatever, with respect to the data asked for herein, should as they occur be forwarded to the Federal Real Estate Board, 217 Arlington Building, Washington, D. C.

(Name, Title, Address)

Explanatory Notes (continued)

11. Give a brief description of the general improvements.
12. Give a brief description covering width and length of streets and water ways, size and length of sewers, length and character of telephone and telegraph lines, etc.

(In answering questions 11 and 12, forward blue prints if available)

13. Submit a statement as to whether property is under the exclusive jurisdiction of the United States. If not, on what terms is it occupied?
14. State whether property is owned by the United States outright or whether there is a reversion to donor when no longer used for Government purposes.
15. The appraisal should be as of July 1, 1929. It is desired to obtain a fair market value of the various properties of the Government, with a statement whether property values in the neighborhood are increasing or decreasing, whether there are any circumstances in the vicinity of the Government property which tend to increase or decrease its value and of the factors determining the appraisement figures. Numerous circumstances enter into the valuation of property, whether within or adjacent to the corporate limits of a municipality, and it may aid in the determination of a fair value to ascertain the terms of recent sales in the neighborhood. It might be advisable also to make inquiries of merchants and real estate agents who may be conversant with conditions surrounding the particular property to be appraised.
